## Use your PHONE to control your WATERING

Flier's can make an easy upgrade to your sprinkling system so you can use your smart phone or tablet to connect with the local weather report for a customized watering schedule, saving you time, water and money. The Rachio Wi-Fi sprinkler controller knows when to skip a watering cycle after it rains so you won't use more water than you need.

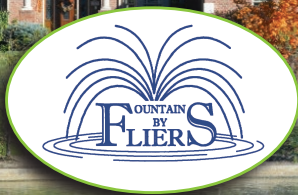

With the Rachio app you can check on your sprinklers when you are away and make adjustments any time. And you will get alerts whenever Rachio adjusts for changes in your local weather. With a Rachio Wi-Fi sprinkler controller from Flier's you can save up to 50% on your outdoor watering bill. And your plants will get just the right amount of water they need to stay healthy and look great.

## Join the Flier's Team!

Flier's Underground Sprinkling is the Grand Rapids area's largest sprinkling company and growing strong. We invite you to consider growing with us. We have job openings for people interested in service, installation and sales. Full time, part time, flex time and summer jobs for college students.

**Check out the job openings at Flier's!**  
**Call Rick VanderWest at 616-583-9040.**

## We carry and service pond fountains for all sizes of ponds.

Fountains from 1/2 horsepower for small water features to 25 horsepower for large ponds. Flier's recommends Otterbine and Aqua Master aerator fountains because of their reputation for high quality, longevity, safety and ease of installation.

## For new customer referrals!

Do you know someone whose sprinkling system has not been winterized or serviced by Flier's before, or could use a new lawn sprinkling or new water filtering system?

### REFER THEM TO FLIER'S

When they call, make sure they mention you're the one who referred them to us.

**WE'LL SEND YOU \$20 to \$50**  
-for each referral-

**\$20 reward** for referring a new service customer.

**\$50 reward** for referring a new lawn sprinkling customer.

**\$20-\$50 reward** for referring a new water system customer as soon as the service has been provided by Fliers. **It's that easy.**

## Save time, save water, save money!

1. Fine tune your sprinkling system and use up to 30% less water. Flier's service technicians can show you how.
2. Install our Climate Logic wireless weather sensing system. The system monitors weather data and alters the controller's program based on the weather.
3. Use a rain sensor to reduce water usage during wet weather.

## **Service When You Need It**

Flier's service technicians are available to reactivate or repair your sprinkling system. They are also available to move sprinkler heads when you add on to the house, build a new deck, or install a swimming pool. Perhaps it's been a long time since you put in your underground sprinkling system, and it needs to be updated or enlarged. Our 14 service trucks are stocked with hundreds of

parts so we can service any kind of sprinkling system in a timely manner.

We use the most advanced valve location devices, broken wire detectors, valve actuators and leak detection equipment and techniques. Our service technicians are trained and certified by Toro.

You may want to take advantage of Flier's service contract program for discounts, reminder calls and added convenience.

### **24-Hour Emergency Service**

Unexpected things happen. When you can't wait for service, Flier's emergency service is available 24 hours a day, 7 days a week. If the problem can wait, you will save money by calling Flier's service department during regular business hours. You can always rely on Fliers!
